

August 19, 2021

Family and Friends,

With a heavy heart I am writing this letter concerning visitation and outing in the community. With Covid 19 cases and in particular the Delta variant increasing in this area we must again return to some past policies involving in house visitation and outings in the community. We value the safety of our residents and staff and appreciate your understanding during this time. Please see below for updates.

- *If you are fully vaccinated* you may visit in their room, everyone including the resident must be wearing a mask at all times. You can continue to visit at any time.
- *If you are fully vaccinated* your family member may go home with a immediate *family member only*, but we are asking that you do not take them out in the community. That means friends or relatives that are not immediate family can no longer take residents out shopping, going to church etc.
- *If you are not fully vaccinated or are partially vaccinated* you may still visit with your family member, but you will have to visit in the designated visitation room. Please call upon arrival for further instructions from a staff member. Your temperature will be taken upon arrival, you must wear a mask at all times and continue to practice social distancing.

If you have any questions please call us at 724-638-7600 or email us at [greystonecountystates@yahoo.com](mailto:greystonecountystates@yahoo.com).

Sincerely,

Monica Shoup, Administrator
